## How to Print Your Gift Voucher

### 1. Get your paper ready.

Make sure you're using letter-sized paper (8.5" x 11"). For the best look and feel, choose a smooth, quality paper.

### 2. Adjust your printer settings.

Before printing, ensure your settings are correct:

- Set the scaling to 100% or “Actual Size.”
- Select the option for “Do Not Scale” or “Print at Full Size” to maintain the proper proportions.

### 3. Print this sheet.

Once the settings are just right, go ahead and print. Your voucher is almost ready to be shared!

### 4. Cut along the lines.

Carefully cut out the voucher following the dotted lines. You now have a neatly sized gift voucher, ready to go.

### 5. Share the love.

Present it however you like—tucked into a card, tied with a ribbon or even as a fun surprise waiting to be found.
